Experience

Mexico City Portfolio - Mexico City, MX || Multi-entity F&B + **AI systems with Claude** Jun 2023 - Present

Founder-Operator + AI Platform Builder | shipping production systems with Anthropic's Claude

- Co-founded and co-operate a 5-location specialty F&B portfolio. Featured in Vogue MX, Food and Pleasure, MexBest. Tracking toward \$2M in revenue this year.
- **RIOsuno.com** - production multi-entity operational intelligence platform; Claude extracts structured fields from Receipts, PDFs, and XMLs while deterministic reconciliation flags drift across POS, accounting, and bank deposits. Inventory, P&L, and more - allowed us to re-allocate two FTEs of manual reconciliation work, better receipt tracking for deductibles (20% improvement), cut waste 5% in the first month.
- **CasaRuta.com** — Spanish-language mortgage comparison and eligibility engine covering 104 products across 30 Mexican institutions (banks, gov, fintechs); normalized schema, monthly automated refresh
- **CapitalRuta.com** — capital matching layer for Mexican SMB across 10+ institution types (loans, equity, grants, leasing, etc), normalized schema, monthly automated refresh

Clearbit - San Francisco, CA + Mexico City, MX || *Data for Modern Marketing and Sales Orgs* Jul 2018 - May 2023

Head of Customer Success Engineering, Support, and Solutions Architecture

- Owned the full go-to-market technical motions across pre-sales, post-sales, integrations, and partnerships — including the strategic planning, process design, and operating cadences that scaled from pre-Series A onward
- Hired, managed, and coached Solutions Architecture, Customer Success Engineering, and Support Engineering from net-new — providing technical guidance and career development across 4 product areas (Salesforce Package, APIs, Native Integrations, Platform).
- Customer development and product strategy, defining internal/external success metrics
- Led technical wins for tier-one accounts such as Meta, Stripe, Unity, Slack, Intercom, ZenDesk

Demandbase - San Francisco, CA || *Account Based Marketing (ABM) Solutions*

Feb 2016 - Jul 2018

Solutions Engineering Lead for customers across financial services, technology, healthcare, and retail

- Scoped and implemented best practice and custom solutions within mid-market and enterprise tech stacks (Eloqua, Marketo, Adobe Analytics, Google Analytics, Tag Management Systems, Optimizely, etc) while also consulting client development and marketing teams in setup, troubleshooting and reporting analyses
- Built internal projects and features such as real time notifications (JS/Slack), data research tools (Python API back/Rails front), central sales scoping tool (Ruby/Rails), event tracking (Rails/JS/Google Analytics)
- Created videos and support docs to advise team and lead clients in implementation process
- Drove technical wins for Fortune 500 enterprise customers including Adobe, Accenture, AWS, and Visa

Vero - San Francisco, CA || *Behavioral and Transactional Email Marketing*

May 2015 - Jan 2016

Customer Success Engineer

Oracle - San Francisco, CA || *Oracle Marketing Cloud - Enterprise Email Marketing*

Apr 2013 - Sept 2014

Senior Expert Services Specialist

Education - University of California, Berkeley B.A. Urban Studies/City Planning

Graduated May 2008
